***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on September 10, 2004 has been entered.

***Additional Prior Art***

The prior art noted in the attached form PTO-892 has been considered by the examiner (as earlier cited in parent application 10/213496 now US Patent 6,672,696).

**REASONS FOR ALLOWANCE**

The examiner agrees that amended claims 41-45 (and new claims 46-49 as dependent from 42 or 43) presented September 10, 2004 overcome the prior rejection and place these claims in condition for allowance.

The examiner agrees that the subject matter of new claims 50-60 including the limitations of the latch means and carriage rotation means such that "the carriage rotation causes the latch means to engage a first printer part and secure the slider member in the latched position", in combination as claimed, is not shown or rendered obvious by the art of record.

Art Unit: 2853

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
